

Porsche 996 Carrera oil light comes on when the engine is warm

Beitrag von „Albert Motorsport“ vom 8. Mai 2026, 12:20

Hi Albert,

Thanks again for these wise words. I have another question. I am a member of a Porsche magazine called PUUR. It is a nice magazine in itself, but I was thinking, wouldn't it be nice if I conducted an interview with you and tried to submit it to the magazine as an article about your beautiful and very skilled workshop? I don't know if they are open to that. I would love to read about it, especially because you have been around for so long and have a wealth of knowledge. I would also understand if you weren't interested in this, but I wanted to ask you anyway.

Bxxxx
