1982 Porsche 930 Turbo with a sequential gearbox or dog-engagement gearbox

Beitrag von „Albert Motorsport“ vom 14. November 2026, 11:25

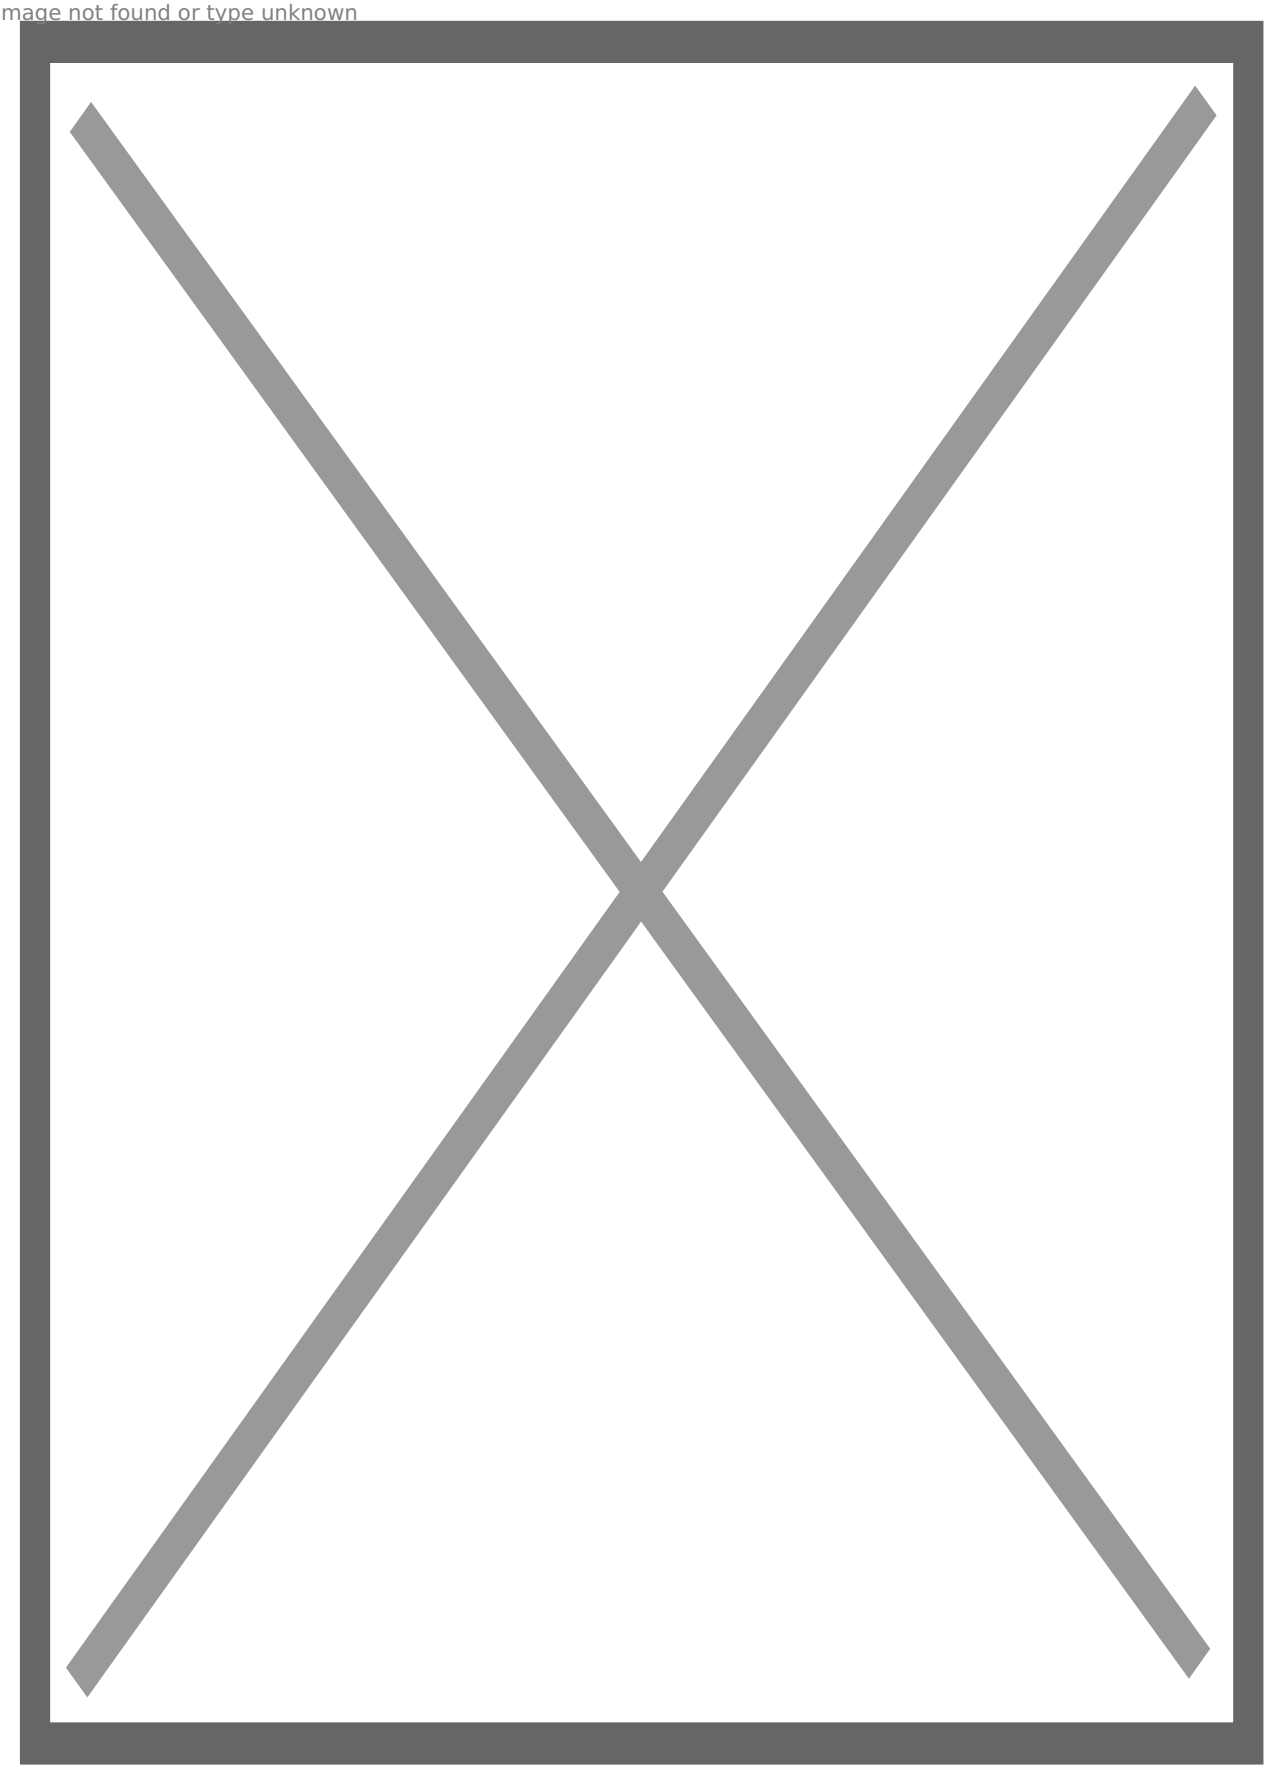

Hi Wxxx,

We can offer you another interesting option for your Porsche 930 Turbo:

Our sequential 6-speed gearbox based on the 915 transmission design.

You can find further information here:

Image not found or type unknown

911 - 915 Cambio manuale sequenziale a 6 marce per Porsche
911 - 915 Sequence Manual Transmission Sequential gearshift for Porsche 911
911race.de

Installation in the 930 Turbo is possible with the necessary modifications

to the car. We can discuss the details of the conversion with you.

It is certainly not a cheap solution, but technically a very interesting and effective one.

Best regards,
