

Is my Porsche 996 Engine to repair?

Beitrag von „Albert Motorsport“ vom 22. Dezember 2022, 01:43

Dear Mr Inxxxxx

this engine is unfortunately no longer repairable because the block is completely [#mechanically](#) [#destroyed](#). The effort is so great that we recommend [#installing](#) a new or used# engine from [#Porsche](#) or an [#accident](#) [#car](#) etc.

If we can help you, then
we would like to do that.

Thank you for your request.

Jürgen Albert
