I want to order 981 GT4 model exhaust and manifold.

Hello Mr. Friedlich,

this exhaust system is a handmade exhaust version with a larger passage to the reqierments of our customers, and has therefore a better exhaust gas routing than any other standard exhaust system.

These items are specially made to order. The production time is currently about 3 weeks with our current order situation.

HERE YOU CAN ORDER A SYSTEM

Kind regards,
JÜrgen Albert
