Bore scoring symptoms

Beitrag von „ThunderBird“ vom 10. Juni 2024, 22:48

Hello Jürgen

Thank you for the explanation. I assume I've learned a thing or two...

So my buying budget is about 40-45k. 45 being the upper budget line I'm not really willing to cross.

For that money I can buy 997 Carrera S (2005) with 93k Kilometers that I optically really like or maybe 996 Turbo (2001) with 145k Kilometers.

Both with automatic transmission.

I'm assuming only, but from your explanation I have the feeling that you would go for 996 in any case.

I'd be happy to hear a word or two on this dilemma from the expert point of view.

Thanks

Milan
