

My new 997.1 engine has rubbing in cylinder

Beitrag von „Albert Motorsport“ vom 18. Juli 2022, 09:03

Hello Tim,

I think it is important that we take a close look at the technology beforehand and then create a cost estimate based on the facts at hand.

The previous announcement of prices makes no sense, and I feel it is dubious if you have not seen the technology, so I don't want to do that either.

It doesn't matter which intake system we install during assembly, changes may still have to be made, but we see that when the components are delivered.

Best regards
Jürgen Albert
