Do you have a Porsche Cayman S 987.1 engine in stock?

Beitrag von „Frage -> Antwort“ vom 1. April 2022, 10:38

Hello,

do you happen to have off the shelf cayman s #987.1
engine which has been rebuilt and had the bore scoring
ims issue covered?

As my current engine is suffering an initial ims failure.

Note : I am located in #Saudi

Kind regards

Hello xxx,

yes, we have such #Porsche #Cayman engines in stock as
exchange engines.

I still need the information whether the #motor comes from
a #Tiptronic vehicle or from a #hand-shifted car.

The year of #manufacture is also important.

Best regards,
Jürgen Albert
