

Operation Powerhouse

Beitrag von „Albert Motorsport“ vom 7. April 2022, 17:00

[Zitat von Porsche News International](#)

Volkswagen is redefining the car, counting on electric drive systems. Thomas Schmall, member of the Volkswagen AG Board of Management responsible for Technology and CEO of Volkswagen Group Components, is leading the battery, charging infrastructure, and vehicle component activities and thereby mastering major parts of this challenge of the century—the strategic transformation of the world's largest car manufacturer.
