[Zitat von Porsche News International](#)

Factory restoration of a rare super sports car: Car enthusiasts of the 1980s and 90s will certainly remember the Porsche 959 as the trump card of its time. A super sports car with a top speed of 315 km/h, just 292 examples were produced by Porsche. Former racing driver Nick Heidfeld owns the even rarer Sport version, of which only 29 were built.
